## Shift Work Solutions Survey

Dear Members,

As a part of the Roster Review Working Party, ShiftWorkSolutions, the external provider have sent out a survey via Aurizon. There are Union representatives on this working party as well as Traincrew from Bluff, Callemondah and Stanwell and Aurizon management.

If you want better rosters in the future, it's imperative that you complete the survey.

If you want a different type of RDO pattern, e.g. long run, short run or hybrid that you should indicate that in the survey.

Please submit any suggestions or concerns you have regarding FAID, work runs and shifts or anything at all that has to do with rosters that effects your work and home life.

Roster surveys and feedback in the past have usually only had a low percentage of returns and this makes things very difficult when it comes to addressing concerns or preferences.

Evidence rules when it comes to enacting change. This is your opportunity to have a voice about what you want in a diagram and what you like or don't like.

If we get the majority of people completing the survey, it will provide the evidence needed to achieve change.

In Solidarity,
