Pacific National Bargaining Update

Dear members,

This week we met with Pacific National in Mackay to discuss both the unions and the company's log of claims for your new Enterprise Agreement.

The time spent this week was used to gain a better understanding of each others claims, however, no real bargaining was undertaken or any agreements in principle made. The combined unions log of claims discussion points, as provided earlier, can be found [here](#).

Unsurprisingly, Pacific Nations log contained discussion points including crew vans, moving the current longevity bonus to a KPI arrangement and introducing additional rostering flexibilities. We have as yet not had the time to delved down into what the company is explicitly suggesting, however your bargaining team understands that these issues are incredibly important to you.

We meet with company representatives again on the 31st August & 1st, 2nd September to continue discussions and take a deeper dive into what is being proposed. I will be sure to give you updates as these discussions continue.

In Solidarity,
